

Position: Civil Engineer

Job Type: Permanent

Location: Napa/Sonoma, CA

Position Status: Open

Acme Engineering Inc. is located in Napa, California, about an hour west of Sacramento. Acme is looking for someone to join our small, dedicated team who is enthusiastic about providing solutions for our clientele. The ideal candidate should be a motivated individual with prior experience in hydrology, pipe flow hydraulics, grading, drainage, and water conveyance. We are seeking someone with a Bachelor of Science in Civil or BioResource and Agricultural Engineering, who has the intention of attaining their Engineer in Training (EIT) certificate within one year of employment.

This entry level position will require working in the office and directly in the field so you will become familiar with the “big-picture” structure of vineyard development and waterworks in the rural areas of Northern California Wine Country. To be a successful addition to our family, the ideal candidate is well-organized, attentive, and detail-oriented with good communication skills.

Individuals will gain experience in earthworks as well as water storage and distribution by assisting Project Engineers in the design of water systems, pipelines, pump stations, water storage, automation systems, grading and drainage. Entry level Engineers work under the direction of licensed Civil and Agricultural Engineers. Duties include but are not limited to on-site field review, as-built site documentation, design, calculations, drafting and other duties as assigned.

Ideal Candidate Skills:

- BS in Civil Engineering or BioResource and Agricultural Engineering
- Familiar with AutoCAD, Civil 3D, ArcView, Microsoft Excel and Word
- Familiar with various pump systems, water systems, grading and drainage
- Knowledge of survey methods and procedures
- Excellent interpersonal skills

Compensation is dependent on experience and includes the following benefits:

- Employer contribution to health insurance
- 401K Retirement plan
- 140 hours of paid time off in the first full year of employment
- 200+ hours of paid time off after one full year of employment
- Acme is closed annually from December 25th through January 1st to enjoy time with our families

For consideration, please email your resume to Jon Terry at info@acmeng.com or submit your application package via Handshake.
